How does AGA handle data?

The processing of personal data is essential to the transaction of insurance business. In the processing of personal data, AGA complies with the Swiss Data Protection Act (DPA). If necessary, AGA obtains via the claim form the necessary approval from the insured person to process the data.

The personal data processed by AGA includes data relating to conclusion of the contract, contract issue and policy/claims handling. In the first instance, information on the policyholder or insured persons is taken from the insurance application and claims statement. In the interests of all policyholders, data may also be exchanged with previous insurers and reinsurers within and outside Switzerland. AGA also processes personal data in connection with product enhancements, as well as for its own marketing purposes.

In order to offer value-for-money comprehensive insurance cover, some of the services offered by AGA are provided by legally independent companies both domestically and abroad. These may be Allianz Group companies or partners. For the purposes of fulfilling its contractual obligations, AGA must exchange data both within and outside the group.

AGA stores data electronically or physically in compliance with the legal provisions.

Persons whose personal data are processed by AGA have the right, in accordance with the Data Protection Act (DPA), to ask whether and what data concerning them AGA actually processes; they may also request the rectification of incorrect data.

- processing fees, e.g. delivery charge, payment handling fees, e-ticket fees or order fees
- fees already paid by the ticket buyer (whether included in the ticket price or not) for inclusion in the ticket portal group insurance as an insured person.

3 Chronic illness is only covered by the insurance if attendance at the event had to be cancelled through a medically documented, unexpected, acute deterioration. Provided that the claimant's state of health was stable at the time the ticket was bought.

4 Insurance cover only applies in the case of pregnancy if the pregnancy occurred after the ticket was bought and the event is scheduled after the 24th week, or if the pregnancy occurred after the ticket was bought and the event presents a risk to the unborn child.
